### CAREER OBJECTIVE

I am a passionate web developer with 6 months of experience in both front-end and back-end development, skilled in HTML, CSS, JavaScript, and proficient in React.js. With experience in Node.js and Express, I aim to leverage my expertise in the MERN stack by contributing to dynamic projects and tackling complex challenges while growing as a full-stack developer

---

### Experience

#### MERN Stack Internship | 3 months

(June 2025 - Present)

Developed and built full-stack applications using MongoDB, Express.js, React.js, and Node.js. Designed and developed front-end components, leading to a 15% increase in user experience. Integrated back-end APIs to ensure a smooth flow of data from the database. Collaborated with the team to improve functionality and performance.

---

### EDUCATION

#### University of Education Lahore

Bachelor of Science – Information Technology

(2019-2023)

---

### PROJECTS

- **Online Pharmacy System**

Developed a prescription-scanning pharmacy app using OCR, with categorized browsing and improving order accuracy

- **Tomato Leaf Disease Detection**

Created a CNN-based system with 95%+ accuracy for detecting tomato leaf diseases. Deployed via Flask with a chatbot for treatment guidance

- **E-Commerce Website with Admin Dashboard**

Built a 4-category e-commerce site with real-time inventory, cart, checkout, and SQLite integration. Designed a clean UI to enhance usability

---

### SKILLS SUMMARY

- **Programming Languages:** Html, Css, Javascript, Python, Flask, React, Node.js, Express.js, MongoDB
- **Tools & Platforms:** Jupiter Notebook Visual Studio Code, Anaconda, Git/GitHub
- **Soft Skills:** Analytical Thinking, Team Collaboration, Communication Skills, Time Management, Problem Solving

---

### Certificate

- **Advance Python Programming and Application**

(June 2025)
